FRESHLY MADE COLD PRESSED JUICES

Cling, composes of C + Ling, which consists of a meaning of “seasonal” in Chinese, and a meaning of “attached to” in English. We aim to bring a healthier alternative of beverage into the market at reasonable prices. We pay attention to the taste, quality, and service, bringing different pairings of juices to preserve optimum nutrients. Besides the healthy, fresh and functional beverages we serve, we also promote sustainable drinking lifestyle, with the use of eco-packaging and eco-friendly beverage operation.

Cling mainly focuses in cold-pressed juices. The difference between us and local fresh juice shops is that we adapt the use of pressed juice machines, which protects and preserves the most nutrients from the fruits. Juice produced will taste even better and easier to be absorbed by the body. Different brands of cold-pressed juice in the market are mostly prepared in advance by factories. There are studies that discovered fruit nutrients will be lost over time through transportation and storage. Cling ensures that juice is made before your very eyes and made with fresh fruits & vegetables only.

FRESHLY MADE BOTTLE PRESSED JUICES

當天製作樽裝慢磨果汁

只用新鮮水果

Fresh fruits only | Made in-the-house

現場新鮮製作

Besides cup juices that made at our counter, Cling also makes freshly made bottle pressed juices that serve your different catering needs. We reformed the recipes & packaging for longer shelf life, easier shipping as well as elegant design. We have collaborated for following occasions:

Gatherings & parties | Company meal & beverage catering

Shop opening | Staff welfare | Farewell & greeting

Detox & cleansing program | Corporate event & team building

Conference & client souvenir | Press release

Why Cling Juicery?

Guaranteed made on the same day | Fresh fruits only, no additives

Custom design for your event | Variety of juices to fit your theme

Reasonable pricing | Just-in-time delivery | Handy for storage

We certainly understand customers' environmental concern. We are happy to source packaging made with more eco-friendly material, or even design the souvenir bottle only for your event! We also serve juice jug that can be used repeatedly.
